the history of one of the greatest acts of deception as kriegsmarine raiders disguised as merchant ships wreaked havoc on allied shipping and the allied cruisers who finally destroyed them during world war ii the kriegsmarine armed a number of merchant vessels with concealed guns and torpedo tubes for surprise attacks against allied shipping to counter this deadly threat the royal navy employed cruisers and their intelligence gathering apparatus to find and destroy the disguised german commerce raiders this highly illustrated duel title covers the deadly game of cat and mouse fought by these surface vessels during world war ii

narrow gauge railways so well suited to difficult mountainous terrain were built in many of the uk's most scenic locations their genesis was in mines and quarries where they replaced man or horse pulled wagons but their adaptability meant that by the 1860s they were also carrying passengers in some cases over quite considerable distances today a good proportion of all the important lines survive in the service of tourists whose appreciation of the landscape and the railways themselves keep these relics of industrial britain alive in all their variety peter johnson has been researching and writing about narrow gauge lines for many years and this is the perfect introduction to a rich and appealing corner of british railway history

this edited volume brings together a new materialist approach to understanding the various legacies and controls being exercised through school uniforms through examining school uniform policies the editors and their authors highlight the embodied choices that contribute to a socio materialist understanding of democracy and social justice uniform policy plays a distinct role in setting the culture of compulsory school education and as such it constitutes a set of under theorised school practices this work thus brings together critical perspectives from education sociology cultural and postcolonial studies within an overarching analysis of how uniform imposes performances that have a formative effect on young people's identities and economic positionality

in auditive räume des alten Ägypten erika meyer dietrich explores the sonic aspects of culture in the 18th dynasty 1550-1290 bce crucial to the transformation of an audio culture during the amarna period are the transfer of traditional sound patterns to new contexts and the position of the heard body in social spaces based on the iconography of sonic acting and the representation of urban places as auditive spaces in the rock tombs of tell el amarna she convincingly shows how through sound sequences and the creation or omission of sounds auditive spaces are given social and religious significance her work adds an important new aspect to the understanding of the amarna period which until now has been studied mainly

as a visual culture

in 1908 prior to his association with howard carter lord carnarvon discovered a wooden tablet near the entrance of a tomb he was excavating this inauspicious object left in a basket in the chief inspector s office turned out to be the most important inscription of the first 20 years of the 20th century it was studied and debated by scholars for years until 1932 when corroborating evidence for the story it told was uncovered this booklet relates the events surrounding the tablet s discovery offers extensive quotes from several of the more important articles published at the time and provides a detailed translation of the text on both sides of the tablet the carnarvon tablet is the first in museum tours press new series site notes which takes an archaeological site a monument or some other item of special interest and examines it thoroughly about the author bill petty earned his phd in engineering and has been an avocational egyptologist since 1990 he has traveled and worked extensively in egypt and published nine books on various aspects of egyptian history and language
