the acceleration of technological change demands that today s information professionals and educators not only be constantly acquiring new knowledge and skills but also that they cultivate the ability to make sound judgments on which technologies to embrace today s librarians and information specialists know it s imperative that they keep up with new technologies but not all technologies are equally important either within the library setting or to library patrons so how does one decide which ones to

pursue and integrate into services in the uphill battle to stay current with new and emerging technologies deciding which ones to pursue and integrate into services is a major challenge a secondary problem is simply finding the time to consider the question readers of keeping up with emerging technologies will learn all of the best practices and skills to keep up with new technologies and to analyze the ability of specific technologies to meet recognized user needs all in this single source you'll learn the best ways to gather information about new technologies and user needs to evaluate and analyze information to curate technology information for others to set up experiments and evaluate the results and to present your findings to persuade decision makers written by the former head of user experience at MIT's library system this guidebook serves information professionals educators education technology specialists and anyone with emerging technology or innovation in their job titles it will also be useful for library administrators and those who manage these positions as well as for students seeking a technology oriented or curriculum design career path in libraries

the poems of anatomy have emerged from biomonitoring and microbiome testing on the author's body to examine the way the outside writes the inside whether we like it or not adam dickinson drew blood collected urine swabbed bacteria and tested his feces to measure the precise chemical and microbial diversity of his body to his horror he discovered that our petroculture has infiltrated our very bodies with pesticides flame retardants and other substances he discovered shifting communities of microbes that reflect his dependence on the sugar salt and fat of the western diet and he discovered how we rely on nonhuman organisms to make us human to regulate our moods and personalities structured like the hormones some of these synthetic chemicals mimic in our bodies this sequence of poems links the author's biographical details diet lifestyle geography with historical details spills poisonings military applications to show how permeable our bodies are to the environment as dickinson becomes obsessed with limiting the rampant contamination of his own biochemistry he turns this chemical microbial autobiography into an anxious plea for us to consider what we're doing to our world and to our own bodies

in this novel approach to law and literature robert barsky delves into the canon of so called great books and discovers that many beloved characters therein encounter obstacles similar to those faced by contemporary refugees and undocumented persons the struggles of odysseus moose aeneas dante satan dracula and alice in wonderland among many others provide surprising insights

into current discussions about those who have left untenable situations in their home countries in search of legal protection law students lawyers social scientists literary scholars and general readers who are interested in learning about international refugee law and immigration regulations in home and host countries will find herein a plethora of details about border crossings including those undertaken to flee pandemics civil unrest racism intolerance war forced marriage or limited opportunities in their home countries

there is evidence that the global covid 19 crisis is exacerbating existing inequalities and marginalization of vulnerable groups including exceptional learners stateless street migrant and refugee children and youths and the limited use of frameworks of emergency planning with and for marginalized and at risk individuals these challenges are multi sectoral and intersecting and they require multi and interdisciplinary interventions to inform inclusive responses these issues include being at a greater risk of excluding vulnerable learners from gaining access to equitable education online remote and blended education intersecting forms of discrimination such as gender socioeconomic and legal status further exacerbate the problem this has alerted us to examine the living conditions of marginalized and vulnerable populations around the globe and to reveal their experiences problems and needs from an educational perspective thus bringing insights into their vulnerabilities during the pandemic
